

VALANCES

FOR THE PERFECT FINISH

A classic design element for patio awnings and additional shade when the sun is low, a valance fulfils two key functions at the same time. You can decide whether you want to decorate your awning with a playful scalloped edge or a straight line to suit your own personal style.

The width of the individual scallop is designed to match that of the stripes.

The straight or scalloped edge of the valance is finished with an edging tape.

DECORATIVE EDGING TAPES

Choose the colour of the edging tape to match your awning fabric.
